

Poster Abstract Submission:

Poster Session

The poster session is open to Practitioners, Undergraduate & Postgraduate students and academics. The scope of the poster session is broad and presenters are encouraged to apply for free printing provided by Coventry University. Even if you are unable to attend – please consider entering a poster. There will be a dedicated poster session on the day of the meeting. We are hoping to give all poster presenters the opportunity to summarise their work orally.

Submission of Posters for Free Printing

Please submit a print ready electronic version of your poster at by Monday 5th March. The budget for printing is limited, decisions will be made on the basis of quality and relevance, priority will be given to students, young researchers and those working for NGOs. We will inform all applicants if they have been successful by the 9th. Please contact organisers directly if you intend to submit late, this will be a busy time of year in our print room and we may not be able to accommodate you. If you submit your abstract and e-version late you are still welcome to display your poster but may have to have it printed elsewhere at your own expense.

Posters under the following themes are encouraged in the context of “Facilitating Knowledge Transfer: Science to Practice in Disaster Management”.

1. Research project development – science / social science integration and stakeholder inclusion.
2. Research methods that contribute to Knowledge transfer.
3. Good practice in dissemination of “scientific” information to stakeholders

Please complete the “abstract form” and send an electronic copy of the form to Paul Cole by 5th March.

e-versions of print ready posters should also be sent to Paul. (p.cole@coventry.ac.uk) by the 5th of March if you are applying for free printing.
